Connector and cable assembly manufacturer with a vast product line serving a wide range of industries. Standard commodity, high-speed, high-density, spring-loaded, fine-pitch and harsh-environment interconnects, plus innovative custom designs for any application-specific requirement.

High-power interconnects for industrial, UPS, data centers, portable power, solar/renewable energy, marine, power generation & distribution, battery chargers, electric vehicles and lighting.

Designs and manufactures standard and custom transformers, inductors, filters, balun assemblies, chokes and related devices for baseband, broadband and power applications from 20 kHz to 1 GHz, for standard or rugged environments.

Full-service, ISO-certified circuit board fabricator. One-stop scheduling for long-range production plus quick-turn prototypes in 24, 48 or 72 hours; 24-hour e-mail file transfer. Facilities in Taiwan and China for higher-volume global production.

"Discrete-to-Digital" interface ICs for avionics and industrial markets. Broad range of analog and mixed-signal ASICs, plus custom RF designs for military, industrial and commercial applications.

High-performance microwave cables and cable assemblies for RF, 5G and test/measurement, engineered for frequencies up to 110 GHz. Specializes in PTFE tape wrapping, braiding and high/low-temperature jacket extrusion for medical imaging, aerospace, defense and quantum computing.

PRBX USA designs and manufactures power conversion systems for extreme environments, delivering mission-critical power solutions tailored for the aerospace, defense, medical and transportation industries.
